

# Why nanoCAD 26 is the right choice for drafting

## Engineering Ecosystem

nanoCAD is a professional-grade CAD platform fully compatible with the industry's DWG standard. It offers the standard user interface with a wide set of tools for 2D/3D drafting that can be extended with modules specific to the needs of professionals in engineering, architecture, and construction

### 5 special modules

3D Modeling

Raster

Mechanica

Topoplan

Construction

### Flexible licensing

- **1-year subscription** to get started right away at minimal cost
  - **3-year subscription** gives a perpetual license and full support and upgrades for 3 years
- 
- **Workstation license** can be used locally on a single computer
  - **Network license** can be used on any computer on the local network
